

NEW PRODUCT ANNOUNCEMENT

INTRODUCING JAX PYRO-PLATE TFS

*JAX Pure Platinum
100% Synthetic Lubricant*

JAX Pyro-Plate TFS is a 100% synthetic lubricating grease with outstanding EPDM elastomer compatibility. This grease is specially formulated for the sealing and lubrication of beverage equipment, including beer taps, barrel filling installations and valves. It is recommended for the lubrication of seals whenever an H1 food-grade lubricating grease compatible with EPDM elastomer materials is required.

Pyro-Plate TFS combines synthetic silicone base fluids with a PTFE grease thickener system to provide outstanding lubrication performance in a broad range of applications.

Performance features include:

- Outstanding high-temperature thermal and oxidative stability
- Wide operating temperature range of -58°F (-50°C) to 350°F (177°C)
- Resistance to water spray-off and water washout

To find out if JAX Pyro-Kote TFS is right for your application, contact your JAX distributor or call 1-800-782-8850.
